ePACT for childcare programs (BAS, Camp, & Preschool)

ePACT
your emergency network

Frankfort Square Park District has partnered with ePACT Network, a health and safety software to better support all our students and campers and make it easier to submit critical data securely!

ePACT is a secure digital solution that allows you to quickly share the health and emergency information we need and provides us with powerful communication tools to ensure we have a way to message you in the event of an illness, injury, or larger scale emergency.

Why are we using ePACT?

To save you time - With ePACT, you only need to complete your child's information once, and then verify that it is still correct for additional programs or subsequent years. If you need to update something quickly, just log in and update it and we'll be notified immediately.

Collecting data electronically and checking in /out using contactless methods that ePACT offers means a significant reduction in sorting through paperwork.

For better security & privacy- ePACT's high encryption levels and commitment to security means your data on ePACT is safer than on paper. ePACT allows us to limit and track access.

How does it work? *An email will be generated from member.support@epactnetwork.com*

- You'll receive an email invite to share information with Frankfort Square Park District
- Click 'Complete Request' to create a free account, or log-in if you already have an existing ePACT account.
- Enter the required information, like medical conditions, and share it with Frankfort Square Park District so that program staff have access.
- Reminder emails will continue to be sent until all information is submitted.

ePACT makes it far easier for you to share emergency information with us; while also ensuring we have access to records anytime, anywhere with the mobile app – even without an internet connection.
